Journal-Submission Checklist

This Submission Checklist is customized for your manuscript and target journal. It enlists all information and/or documents required to upload or fill in the journal submission system once you log in to it. You are required to respond to the aspects highlighted by the Submission Expert, as well as confirm if the already mentioned information is correct to the best of your knowledge.

Important: *This is to inform that by reading and acknowledging the information in this document, the author/s gives Enago expert/s the right to proceed ahead with completion of the manuscript submission process to the journal on their behalf. This is to comply with the Good Publication Practice 3 (GPP3) guidelines and the International Committee of Medical Journal Editors (ICMJE) criteria for ethical publication protocol.*

Note for the author: At all places, everything mentioned in "RED" needs a response/input from you.

I. Assignment details	
Assignment Code	ABCDEF_CP_MSA1-1
Submission Type	New-submission
Manuscript Title	Metal Contamination Sources in Soils
Article Type	We have selected "Article" for your manuscript.
Journal name and URL	Toxics https://www.mdpi.com/journal/toxics/instructions
Login ID	abcdef@gmail.com
Password*	Abcdef@123

* *We also request the authors to not change the password until the submission process is complete. Should you change it, please notify us of the new password to avoid delays*

II. Author details	*Please list or verify the requested details in the table below.*	
Name of Author/s[1] with titles	Institutional Email Addresses[2]	ORCiD[3] (if available)
Author 1 Author 2	Needed for all	Please provide ORCiD and password. (Optional)
Personal Homepage (only for corresponding author)	Needed Please provide Personal Homepage for corresponding author. If you don't currently have an official website, please feel free to use or https://sciprofiles.com/ or provide your Biography*.	
Twitter@	We will include @Twittername when we promote the paper on Twitter. (Optional)	

[1] Authors – Authors are those who have conducted experiments/research and have written the manuscript.
[2] Email Address – The email address is the one that author/s most frequently use for research communication.
[3] ORCiD – It is a unique digital identification number of an author that can be obtained by registering in https://orcid.org/register

III. Documents for submission *Please check the section status mentioned as "Needed". It requires your response.*	
Non-published materials Non-published material file should contain any supporting documents not intended for publication, for example unpublished material cited by the work. If you have multiple files, please put them together in a single archive, e.g. a zip file. Coverletter (PDF)	Optional
Copyright Form • Upload here • No copyrights issues Authors should obtain permission to reproduce any published material (figures, schemes, tables, or any extract of a text) that does not fall into the public domain, or for which they do not hold the copyright. Permission should be requested by the authors from the copyright holder. Please refer to https://www.mdpi.com/authors/rights for more details. If you have obtained permission, please upload related files in the below frame; if the manuscript does not involve copyright issues, please choose "no copyrights issues".	Select One
Original Images for Blots/Gels (ZIP/PDF) • Upload here • No blots/gels data in the main article or supplementary materials Please uploaded a single PDF file or a zip folder including the original, uncropped and unadjusted images supporting all blot and gel results reported in main article or supplementary materials. Authors should annotate each original image, corresponding to the figure in the main article or supplementary materials, and label each lane or loading order. All experimental samples and controls used for one comparative analysis should be run on the same blot/gel image. The different images should not be spliced together to illustrate the results.	Select One
Graphical abstract Authors are encouraged to provide a self-explanatory graphical abstract of the paper (to be published on the website along with the abstract on the table of contents and search results). *The minimum required size for the GA is 560 × 1100 pixels (height × width). The size should be of high quality in order to reproduce well.*	Please revise the size of Graphical abstract
Video Abstract A video abstract is the video equivalent of a written abstract. Up to 5 minutes long, it should give an overview of the background, scope, and results of your paper.	Optional

SAMPLE

IV.Journal Formatting Requirements

Please address the gaps in formatting mentioned under each section below, in the manuscript and send us the revised file. Please avoid making any content related changes in the document.

Manuscript Sections	Status
We have added below statement as per journal's guidelines Informed Consent Statement: Not applicable.	For your information
Table 1 We have moved the table 1 after its citation in text	For your information
Table S5 and Table S6 Table S5 and Table S6 are present in parts. Please consider providing it as single table.	Optional
Figures Please provide all figures as separate file so that we can check it is formatted as per journal's guidelines.	Needed
References Reference [41] is not cited in text. Please cite after reference [40] in text. Please add page range for following book reference: 14. Tinsley, I.J. *Chemical concepts in pollutants behavior*, J. Willey and Sons Inc: New York, USA, 1979. Please add "edition number, Publisher: Publisher Location, Country, Year; Volume, page range" for following book chapter reference: **Example: 3.** Author 1, A.; Author 2, B. Title of the chapter. In *Book Title*, 2nd ed.; Editor 1, A., Editor 2, B., Eds.; Publisher: Publisher Location, Country, Year; Volume 3, pp. 154–196. 15. Bradl, H. Chapter I: sources and origins of metals. In Metals in the environment: [origin, interaction and remediation] Bradl, H.B., Ed.; 2005. Please provide URL and date of access for below reference: 46. USEPA. Guidance for data quality assessment: practical methods for data analaysis, EPA QA/G-9, QA00, 2000. 49. National Institute of Environmental Research (NIER). Evaluation and establishment of the soil pollution standards (I), South Korea (in Korean), 2004. 50. National Institute of Environmental Research (NIER). Evaluation and establishment of the soil pollution standards (II), South Korea (in Korean), 2005. 51. Rijkswaterstaat Ministry of Infrasturcture and the Environment. Into Dutch Soils, WVL1114VH2374, 2014.	Needed
Acronyms/Abbreviations: List if abbreviation is not needed. Please confirm if we can delete it. Abbreviations should be defined the first time they appear in each of three sections: the abstract; the main text; the first figure or table. When defined for the first time, the acronym/abbreviation/initialism should be added in parentheses after the written-out form.	Please confirm

SAMPLE
